Section A: Faculty section

1. General provisions

Article 1.1 Applicability of the Regulations

1.	These Regulations apply to anyone enrolled in the programme, irrespective of the academic year in which the student was first enrolled in the programme.	Advice OLC, approval FGV (9.38 sub b)
2.	These Regulations enter into force on 1 September 2025.	Advice OLC, approval FGV (9.38 sub b)
3.	An amendment to the Teaching and Examination Regulations is only permitted to concern an academic year already in progress if this does not demonstrably damage the interests of students.	Advice OLC, approval FGV (9.38 sub b)

Article 1.2 Definitions

The following definitions are used in these Regulations (*in alphabetical order*):

a. academic year: the period beginning on 1 September and ending on 31 August of the following calendar year;

b. EC (European Credit): a course credit with a workload of 28 hours of study;

c. examination: an assessment of the student's knowledge, understanding and skills relating to a unit of education. The assessment is expressed in terms of a final mark. An examination may consist of one or more partial examinations. A resit always covers the same material as the original examination. An examination can be completed in writing, orally or in another way;

d. final examination: a Master's programme consists of a Master's examination;

e. internship: period spent working in professional practice as part of a study programme;

f. 1. joint degree: a degree awarded by an institution together with one or more institutions in the Netherlands or abroad, after the student has completed a study programme (a degree programme, a major or a specific curriculum within a degree programme) for which the collaborating institutions are jointly responsible;

2. double degree: partnership between a programme of a Dutch educational institution with a foreign educational institution, whereby students complete all or part of both study programmes and obtain two diplomas on the basis of agreements regarding the mutual recognition of the programme (replacement courses);

g. period: a part of a semester;

h. practical exercise: participation in a practical training or other educational learning activity, aimed at acquiring certain (academic) skills. Examples of practical exercises are:

- researching and writing a thesis or dissertation
- carrying out a research assignment
- taking part in fieldwork or an excursion
- taking part in another educational learning activity aimed at acquiring specific skills, or
- participating in and completing a work placement;

i. programme: the totality and cohesion of the units of education, teaching activities/methods, contact hours, testing and examination methods and recommended literature;

j. SAP/SLM: the student information system (*Student Lifecycle Management*);

k.	semester:	the first (September - January) or second (February - August) half of an academic year;
l.	specialisation:	optional route of study within a degree programme indicating a deepening of the context of the programme (e.g. interdisciplinary or multidisciplinary);
m.	student	person studying;
n.	student statute:	sets out the rights and responsibilities of students on the one hand, and of Vrije Universiteit Amsterdam on the other hand, including those derived from the law and those derived from university regulations. The Executive Board (CvB) officially confirms the student statute once its completeness has been approved by the University Student Council (USC);
o.	study guide:	the guide for the study programme that provides further details of the courses, provisions and other information specific to that programme. The Study Guide is available electronically at: https://studiegids.vu.nl/en#/;
p.	study monitor: (*studiemonitor*):	dashboard for students and academic advisors containing data pertaining to the student, including the student's study progress;
q.	subject:	see t. 'unit of education';
r.	thesis	a unit comprising research into the literature and/or contributing to scientific research, always resulting in a written report;
s.	track:	a study pathway within a broader Bachelor's or Master's degree programme, such as a fully English-language study pathway within a Dutch-language Bachelor's or Master's programme;
t.	unit of education:	a unit of study of the programme within the meaning of the WHW;
u.	university:	Vrije Universiteit Amsterdam;
v.	WHW:	the Dutch Higher Education and Research Act (Wet op het Hoger Onderwijs en Wetenschappelijk Onderzoek);
w.	workload:	the workload of the unit of education to which an examination applies, expressed in terms of credits = EC credits (ECTS = European Credit and Transfer Accumulation System). The workload for 1 year (1.680 hours) is 60 EC.

The other terms have the meanings ascribed to them by the WHW.

2. Study programme structure

Article 2.1 Structure of academic year and units of education

1.	The study programme will be offered in a year divided into two semesters.	Ordinance CvB, see Appendix III
2.	Every semester consists of three consecutive periods. The first two periods each consist of eight weeks, and the final period consists of four weeks.	Ordinance CvB, see Appendix III
3.	A unit of education comprises 6 EC or a multiple thereof.	Ordinance CvB, see Appendix III
4.	By way of exception to paragraph 3, the Executive Board may in special cases and on request of the Faculty Board, stipulate that a unit of education comprises 3 EC or a multiple thereof.	Ordinance CvB, see Appendix III

3. Assessment and examination

Article 3.1 Signing up for education and examinations

1. Every student must sign up to participate in the units of education of the programme, the examinations and resits. The procedure for signing up is described in an annex to the student statute.	Ordinance CvB, see Appendix III
2. Signing up may only take place in the designated periods.	Ordinance CvB, see Appendix III

Article 3.2 Type of examination

1. At the examiner's request, the Examination Board may permit a different form of examination than is stipulated in the study guide.	Advice OLC, approval FGV (7.13 l)

Article 3.3 Oral examinations

1. No more than one student will be examined orally at a time, unless specified otherwise in part B for the relevant unit of education.	Advice OLC; approval FGV (7.13 l and n)
2. A second examiner is present when an oral examination is being held, unless the Examination Board has determined otherwise. The oral examination takes place at a time and location to be determined by the examiner within the regular timetable, on campus or online. At the request of the student, and with the approval of the examiners, an audio recording can be made. Should the second examiner not be available unexpectedly, an audio recording of the oral exam can be made. This audio recording is retained by the university for the retention period applicable for examinations.	Advice OLC; approval FGV (7.13 l and n)

Article 3.4 Determining and announcing results

1. The examiner determines the result of a written examination within fifteen working days. However, the marking deadline for theses and final assignments is no longer than twenty working days after submission. The examiner will then immediately ensure that the marks are registered and also ensures that the student is immediately notified of the mark, taking due account of the applicable confidentiality standards.	Ordinance CvB, see Appendix III
2. The examiner determines the result (i.e. mark) of an oral examination as soon as possible, but at the latest within one working day after the examination has finished and informs the student accordingly. The third clause of the first paragraph applies.	Advice OLC; approval FGV (7.13 o)
3. In the case of assessments other than oral or written examinations, the Examination Board determines in advance how and by what deadline the student will be informed of the results.	Advice OLC; approval FGV (7.13 o)

Article 3.5 Examination opportunities

1. a. Per academic year, two opportunities to take examinations will be offered for each unit of education. b. By way of exception to a., the options for retaking practical exercises, work placements and theses are detailed in the relevant work placement manual, course manual or teaching regulations.	Ordinance CvB, see Appendix III
2. The most recent mark will apply in the event of a resit. A resit is allowed for both passed and failed units of education.	Ordinance CvB, see Appendix III

3. The resit for an (partial) examination may not take place within ten working days of the announcement of the results for the original (partial) examination. Exceptions are only possible in period 6.	Advice OLC; approval FGV (7.13 j)
4. The Examination Board may allow a student an extra opportunity to sit an examination if that student: a) lacks only those credits to qualify for their degree; and b) has failed the examination during all the previously offered attempts unless participation in an examination was not possible for compelling reasons. The extra opportunity can only be offered if it concerns a written examination, a paper or a take home examination. This provision excludes the practical exercises and the Master's thesis. Requests for an additional examination opportunity must be submitted to the Examination Board no later than 15 July. If necessary, the method of examination may deviate from the provisions in the study guide.	Ordinance CvB, see Appendix III
5. If a unit of education is no longer offered, at least one additional opportunity will subsequently be provided to sit the examination(s) or parts thereof and a transitional arrangement will be included in section B.	Advice OLC, approval FGV (7.13 j)

Article 3.6 Marks

1. (Partial) grades are given on a scale from 1 to 10 with no more than one figure after the decimal point.	Ordinance CvB, see Appendix III
2. A final mark between 5 and 6 will be rounded to the nearest whole number: final marks below 5.5, rounded down; final marks of 5.50 or higher, rounded up. All other final marks will be expressed in whole or half marks.	Ordinance CvB, see Appendix III
3. To pass a given course or unit, a final mark of 6 or higher is required.	Ordinance CvB, see Appendix III
4. The Examination Board can allow the use of symbols rather than numbers, for example: s(atisfactory), g(ood), u(n)s(at)is(factory), etc. In case a student does not take part in any examination, the examiner will register the mark 'ns' (c.q. no show).	Ordinance CvB, see Appendix III

Article 3.7 Exemption

1. At the written request of the student, the Examination Board may exempt the student from taking one or more examination components, if they: a. have either passed a unit of education at a university or university of applied sciences (HBO) or a research university (WO) that is equivalent in terms of content and level; or b. have demonstrated through their work and/or professional experience that they have sufficient knowledge and skills with regard to the relevant unit of education.	Advice OLC; approval FGV (7.13 r)
2. The Master's thesis is excluded from this exemption possibility.	Advice OLC; approval FGV (9.38 sub b)
3. a. A maximum of 18 EC for a one-year Master's programme and 36 EC for a two-year Master's programme can be accumulated through granted exemptions. The substituting courses are not included. b. This regulation does not apply if a student is (simultaneously) enrolled in multiple programmes, which lead to multiple degrees, where courses may be part of both programmes. In such a case, the Examination Board may deviate from the regulations under a.	Advice OLC; approval FGV (9.38 sub b)

Article 3.8 Validity period for results

1.	The validity period of examinations passed and exemption from examinations is unlimited, unless otherwise specified in Section B.	Legal provision
2.	The validity period of a partial examination is limited to the academic year in which it was sat or until the end of the unit of study concerned, as stipulated for the relevant unit of study in Section B. In exceptional circumstances, an examiner may deviate from this; this must be stated on Canvas at the start of the unit of education.	Advice OLC; approval FGV (9.38 sub b)

Article 3.9 Right of inspection and post-examination discussion

1.	Within twenty working days after the announcement of the results of a written examination, but at least ten working days before the resit opportunity for that examination, the student can submit a request to review their graded examination.	Advice OLC; approval FGV (7.13 p and q)
2.	Students can view the questions and assignments set in the written examination, and the standards applied when assessing the examination, within the period specified in 3.9.1.	Advice OLC; approval FGV (7.13 q)
3.	The examiner determines whether the inspection takes place collectively or individually. In all cases, the time and place of the inspection is announced in the course manual or learning environment.	Advice OLC; approval FGV (7.13 q)
4.	Students are entitled to feedback on their academic performance. The manner in which this is provided in each unit of education is described in the course manual.	Advice OLC; approval FGV (7.13 p and q)

4. Academic student counselling and study progress

Article 4.1 Administration of study progress and academic student counselling

1.	The faculty board is responsible for the correct registration of the students' study results. After the assessment of a unit of education has been registered, every student has the right to inspect the result for that component and also has a list of the results achieved at their disposal in VU.nl Dashboard.	Advice OLC; approval FGV (7.13 u)
2.	Enrolled students are eligible for academic student counselling. Academic student counselling is in any case provided by a. The Student Counsellor b. Student psychologists c. Faculty academic advisers	Advice OLC; approval FGV (7.13 u)

Article 4.2 Facilities for students with a disability or impairment

1.	Students with a disability or impairment , can submit a request via VU.nl Dashboard to qualify for one or more special facilities with regard to teaching, practical exercises and examinations. These facilities will accommodate the student's individual disability or impairment as much as possible, but may not alter the quality or degree of difficulty of a unit of education or an examination. In all cases, the student must fulfil the exit qualifications for the study programme.	Advice OLC; approval FGV (7.13 m)
2.	The request referred to in the first paragraph must be accompanied by a statement from a doctor or psychologist. If possible, an estimate should be given of the potential impact on the student's study progress. In case of a chronic disability a single (one time) request suffices.	Advice OLC; approval FGV (7.13 m)

3. Students who have been diagnosed with dyslexia must provide a statement from a BIG-, NIP- or NVO-registered professional who is qualified to conduct a psychological evaluation.	Advice OLC; approval FGV (7.13 m)
4. The faculty board, or the person acting on behalf of the faculty board, decides on teaching facilities and facilities regarding logistics. The Examination Board will decide on requests for facilities with regard to examinations.	Advice OLC; approval FGV (7.13 m)
5. In the event of a positive decision in response to a request as referred to in paragraph 1, the student can make an appointment with the academic adviser to discuss the details of the provisions.	Advice OLC; approval FGV (7.13 m)
6. A request for one or more facilities can be refused if it would place a disproportionate burden on the organisation or the resources of the faculty or university were it upheld. Any such refusal will be substantiated.	Advice OLC; approval FGV (7.13 m)
7. If the disability or impairment justifies an extension of the examination time, the responsible person on behalf of the Examination Board will register in SAP this entitlement to an extension. If a disability or impairment justifies other measures to be taken, the academic adviser can take the necessary measures. The student can consult the study monitor to check which facilities have been granted to them.	Advice OLC; approval FGV (7.13 m)
8. The decision as referred to in paragraph 5 may specify a limited validity of the facilities granted.	Advice OLC; approval FGV (7.13 m)

5. Hardship clause

Article 5.1 Hardship clause

In instances not regulated by the Teaching and Examination Regulations or in the event of demonstrable extreme unreasonableness or unfairness, the faculty board responsible for the study programme will decide, unless the matter concerned is the responsibility of the Examination Board.	Advice OLC; approval FGV (9.38 sub b)

Section B1: Programme-specific section

6. General programme information and characteristics

Article 6.1 Study programme information

1. The programme M Biomedical Sciences CROHO number 66990 is offered on a full-time basis.	Advice OLC; approval FGV (7.13 u)

Article 6.2 Teaching formats used and modes of assessment

1. The programme uses the teaching formats as specified in the study guide.	Advice OLC; approval FGV (7.13 x)
2. The modes of assessment used per unit of education are specified in the study guide.	Advice OLC; approval FGV (7.13 l)

Article 6.3 Academic student counselling

1. The programme offers the following counselling in addition to the student counselling mentioned in Section A: - Master's coordinator: study planning - Tutor(s)	Advice OLC; approval FGV (7.13 u)

7. Further admission requirements

Article 7.1 Intake date(s)

1. The Master's programme starts on 1 September.	Advice OLC, Approval FGV (9.38 sub b)

Article 7.2 Admission requirements

1. Admission to the Master's programme is possible for an applicant who has obtained a Bachelor of Science degree at an institution of academic higher education, which demonstrates the following knowledge, understanding and skills: a. Knowledge and understanding: ○ Minimum of 24 EC in molecular biology , including at least 3 EC in each of the topics mentioned below: ▪ Cell Biology; ▪ Biochemistry; ▪ Genetics. ○ Minimum of 24 EC in human biology, including at least 3 EC in each of the topics mentioned below: ▪ Immunology; ▪ (Medical) Microbiology. ○ At least one course in Statistics b. Skills: • Practical laboratory techniques in cell biology, biochemistry, genetics, immunology and/or microbiology gained in courses; • A Bachelor's research internship/thesis of ≥12 EC, working on a biomedical research question. The internship should have been performed at a research group within a university, academic medical centre or acknowledged research institute.	Advice OLC, approval FGV (9.38 sub b)

• Academic skills and critical thinking demonstrated through critical reading, analysis, and comprehension of scientific literature at an academic level.	
2. a. Applicants who wish to follow the second-year specialisation International Public Health must, in addition to the provisions in paragraph 1, also meet the following requirements with regard to: knowledge and understanding in Epidemiology. b. Applicants who wish to follow the second-year specialisation Education must, in addition to the provisions in paragraph 1, also meet the following requirements with regard to: i. Knowledge and understanding: at least 120 EC within Bachelor's and Master's degree divided over the core domains: Evolutionary Biology, Molecular and Cellular Biology, Genetics and Reproduction, Organismal Biology, Behaviour, Ecology, Biodiversity and Plants. ii. Skills: • Field work: field biology in excursions/trips • Practical and experiments in plant biology	Advice OLC, approval FGV (9.38 sub b)
3. Applicants with a Bachelor's degree obtained at an institution outside the Netherlands may be asked for additional methods to prove that they meet the admission requirements.	Advice OLC, approval FGV (9.38 sub b)
4. Not applicable (concerns Dutch language programmes)	Advice OLC, approval FGV (9.38 sub b)
5. Applicants should demonstrate that they have a sufficient level of proficiency in English by meeting at least one of the following standards: - IELTS Academic: an overall score of at least 6.5; IELTS test has a validity of 2 years. - TOEFL iBT: an overall score of at least 92; TOEFL test has a validity of 2 years. - Cambridge Certificate of Proficiency in English (CPE) or Cambridge Certificate of Advanced English (CAE) with an overall score of at least 180. Cambridge tests are valid indefinitely.	Advice OLC, approval FGV (9.38 sub b)
6. Applicants who have completed one of the following meet the English language requirement and therefore are exempted from taking an English language test (as mentioned in the section 5) if: - a secondary education or higher education degree fully taught in English has been completed in Australia, Canada (except Quebec province), Ireland, New Zealand, Singapore, South Africa, the United Kingdom or the United States of America; - a Bachelor's or Master's degree in an English-taught programme accredited by NVAO in the Netherlands has been earned; or - a Bachelor's or Master's degree in an accredited fully English-taught university programme has been earned in a member state of the European Union/ European Economic Area; or - a VWO diploma or equivalent diploma in which the course of English of a comparable level is required has been earned.	Advice OLC, approval FGV (9.38 sub b)
7. The Admission Board will investigate whether the applicant meets the admission requirements.	Advice OLC; approval FGV (9.38 sub b)

Article 7.3 Selection criteria

1. In addition to the admission requirements referred to in Article 7.2, the Faculty Board also sets the following selection criteria: not applicable	Advice OLC, approval FGV (9.38 sub b)

Article 7.4 Pre-Master's programme

1. Not applicable. From academic year 2024-2025, M Biomedical Sciences no longer offers a pre-Master's programme. Students with a Bachelor's degree in Biology and Medical Laboratory Research obtained at a university of applied sciences (HBO) can apply directly for admission to the Master's programme.	Advice OLC; approval FGV (9.38 sub b)

8. Examinations and results

Article 8.1 Sequence of examinations

1. Students may participate in the examinations and practical exercises of the units of education listed below only if they have passed the examination or examinations for following units of education: - AM_471137 Internship Immunology only if they attended the courses listed below and acquired at least 12 EC of these courses: o AM_1281 Integrated Biomedical Sciences (for students started in 2022-2023 or later) o AM_470656 Advanced Molecular Immunology and Cell Biology o AM_1309 Clinical Immunology and Disease Mechanisms (or former course AM_470655 Clinical Immunology) - o AM_1318 Immune Modulation, Monitoring and Metabolism (or former courses AM_1282, AM_1283, AM_1257 or AM_1031) AM_471138 Internship Infectious Diseases only if they attended the courses listed below andacquired at least 12 EC of these courses: o AM_1281 Integrated Biomedical Sciences (for students started in 2022-2023 or later) o AM_470656 Advanced Molecular Immunology and Cell Biology o AM_470657 Molecular Infection Biology o AM_470127 Containment Strategies of Infectious Diseases ór AM_470052 Parasitology ór AM_1310 The Human Microbiome in H&D - AM_1178 Internship Neurobiology only if they attended the courses listed below and acquired at least 12 EC of these courses: o AM_1281 Integrated Biomedical Sciences (for students started in 2022-2023 or later) o AM_1275 From Molecule to Mind o AM_1005 Clinical Neurosciences o AM_1214 Genetics in Neuroscience - AM_471139 Internship International Public Health only if they passed the following courses: o AM_1255 Research Methods for Health Sciences	Advice OLC; approval FGV (7.13 h, s & t)

o AM_470127 Containment Strategies of Infectious Diseases in Global Context o AM_470819 Policy, Management and Organization in International Public Health - AM_1162 or AM_1163 Internship Science Communication only if they passed AM_1182 Research Methods for Analyzing Problems and AM_470587 Science and Communication and has acquired 6EC of the following courses: o AM_1002 Science in Dialogue o AM_471014 Science Journalism o AM_470590 Science Museology - AM_1133 Internship Science in Society only if they passed the following courses: o AM_1182 Research Methods for Analyzing Problems o AM_470571 Analysis of Governmental Policy o AM_470572 Communication, Organization and Management - The second internship after passing the first internship; - The second year specialisations Science in Society or Science Communication only if the student passed 24EC of their first year.	

Article 8.2 Validity period for results

1.	The validity period of the examinations and exemptions from examinations below is limited, as follows: Not applicable	Advice OLC; approval FGV (7.13 k)
2.	A student may request the Examination Board to extend the validity of an exam. If the student's knowledge is demonstrably outdated, or if the student's skills and understanding are demonstrably outdated, the Examination Board may impose a supplementary examination, impose a replacement examination or refuse to extend the period of validity.	Legal provision
3.	In situations where a limited period of validity applies, the period of validity of examinations may be extended in the event of extenuating circumstances as stipulated in WHW Article 7.51, paragraph 2, with at least the period of allocated financial assistance specified in WHW Article 7.51, paragraph 1.	Legal provision

Section B2: Programme-specific section – content of programme

9. Programme objectives, tracks/specialisations, exit qualifications and language

Article 9.1 Workload

1. The programme has a workload of 120 EC.	Approval OLC; (7.13 g)

Article 9.2 Tracks and/or specialisations

The programme has the following tracks and/or specialisations: - Immunology - Infectious Diseases - Neurobiology[1] - International Public Health - Science Communication specialisation - Specialisation Science in Society - Education specialisation	Approval OLC (7.13 b)

Article 9.3 Programme objective

1. The programme aims to: equip students with knowledge to understand how different (sub)disciplines contribute to addressing the complex biomedical issues and to gain knowledge, skills and competences from two subdisciplines in the biomedical sciences. The programme has three learning goals: - Understanding the integration of various biomedical disciplines and the societal interface in order to address biomedical issues. - Deeping knowledge, skills and competences in a specific biomedical discipline. - Broadening knowledge, skills and competences to another biomedical discipline or do research on the interface of science and society.	Advice OLC; (7.13 a)

Article 9.4 Exit qualifications

1. At all events, graduates of the study programme will have: **Dublin descriptor 1: Knowledge and understanding** Graduates should have specialized theoretical and practical knowledge of Biomedical Science notably within the field of their specialisation. Graduates: • master the fundamental concepts of modern biomedical sciences and understand the state of the art in terms of developing theories and insight into the most important current research issues in the biomedical discipline in which the student has specialized. • appreciate the place of their specialisation within the biomedical and the natural sciences.	Approval OLC (7.13)

[1] NB: The specialisation Neurobiology will be discontinued from September 1, 2026. No new students will be admitted to the specialisation for academic year 2026-2027. Students who started the specialisation in academic year 2025-2026 or earlier are still allowed to complete it until August 31, 2028. No diplomas for this specialisation will be issued starting from September 1, 2028.

- are able to appreciate the scientific and social relevance of biomedical sciences, and of current research in the area of specialisation.
- are able to think in multidisciplinary terms, and possesses an understanding of other disciplines (and sub-disciplines) that are of importance to biomedical sciences.
- have command of advanced research techniques, laboratory procedures and (statistical) methodology necessary for the specialisation.

Dublin descriptor 2: Application of knowledge
Graduates should be experienced in carrying out research, in applying techniques specific to the subject area and in applying scientific knowledge to problems raised in society.

Graduates:

- are able to design experiments in the different fields associated with Biomedical Sciences notably within the field of their specialisation and analyze their results.
- have knowledge about the methodology used within research of the field of their discipline and can apply independently these methods in research.
- are able to apply their scientific knowledge to social questions.
- can think multidisciplinary and have insight in the relevant (sub)disciplines that are important to their specialisation.
- are able to reflect on the ethical aspects of research or its uses, and include these deliberations in the decision-making process.
- adopt an attitude towards the correct and unbiased use and presentation of data.

Dublin descriptor 3: Critical judgment
Graduates should be able to independently and critically judge information.

Graduates:

- are able to independently acquire information in the field of their specialisation, and to analyze and critically evaluate such information.
- are able to select and order information, to distinguish essentials from trivialities, and to recognize connections.
- are able to independently and critically analyze research in the field of their specialisation, both in relation to its design, planning and execution, and to the results obtained.
- have the ability to evaluate their own performance, both introspectively and in discussion with others.

Dublin descriptor 4: Communication
Graduates should be able to transfer knowledge and skills related to their subject area to other persons and to adequately reply to questions and problems posed within society.

Graduates:

- can report orally on research results in English with support of modern presentation techniques.
- can report in written form on research results on the level of peer-reviewed academic journals.
- can make essential contributions to scientific discussions about plans, results and consequences of research.
- can collaborate with researchers from other disciplines.

Dublin descriptor 5: Learning skills
Graduates should develop learning skills that enable their further self-education and

	development within the subject area. Graduates: • are able to understand and summarize scientific literature within the field of their specialisation. • are able to draw up a research plan, giving details of experimental design, execution and analysis. • are familiar with general scientific journals such as Nature and Science, and with journals in the area of their specialisation. • are familiar with computer software that is relevant to the field. • have been able to influence their personal learning process by the choice of courses.	
2.	Notwithstanding the provisions of paragraph 1, a graduate of the following specialisations will have the following knowledge and understanding in the field of specialisation: • Immunology: Graduates with a specialisation in Immunology have a broad understanding of immunological processes, ranging from the molecular and cellular interactions between host and pathogen to an integrative knowledge of the role of the immune system in various pathologies, such as cancer, infectious diseases and autoimmunity. Graduates have specialized in one of the subjects within the field of immunology. They possess knowledge of current theory and the key research questions in the field of immunology and have an understanding of the scientific and social relevance of this subject area. • Infectious diseases: Graduates with a specialisation in Infectious diseases have a broad understanding of the biology of pathogenic organisms and the interaction between pathogens and their hosts. Graduates have the ability to conduct scientific research in the field of medical microbiology and to critically assess the results of microbial research. Graduates have specialized in one of the subjects within the field of medical microbiology. They possess knowledge of current theory and the key research questions in this field and have an understanding of the scientific and social relevance of this subject area. • Neurobiology: Graduates with a specialisation in Neurobiology have knowledge, insight and understanding of the state of the art in terms of developing theories and insight into the most important current research issues in the neurosciences. Graduates have the ability to conduct scientific research in the field of neurobiological research and to critically assess the results. Graduates have specialized in one of the subjects within the field of neurobiology. They possess knowledge of the significance of neurobiology within the context of brain research and some of its clinical implications. • International public health: Graduates with a specialisation in International public health have a broad understanding of current and future challenges in international public health, their main causes, and applied and potential interventions. Graduates have specialized knowledge of relevant concepts from various disciplines, including epidemiology, policy science, anthropology, management studies, biomedical sciences and health sciences. Graduates have the ability to conduct scientific research in the field of international public health and to critically assess the results of international public health research. Graduates have specialized in one of the subjects within the field of international public health. They possess knowledge of current theory and the key	Approval OLC (7.13 b)

	research questions in this field and have an understanding of the scientific and social relevance of this subject area. • Communication specialisation: Biomedical science is increasingly becoming an interdisciplinary research field in which biomedical scientists can no longer function effectively in isolation. Rather, they benefit from interaction with other scientists (such as those in the fields of molecular biology, neurobiology and immunobiology) and societal actors (such as doctors, patients and policymakers). Communication about science takes place between academic peers and between scientists and the general public. This makes the Communication specialisation a complex and dynamic field of research and practice, for example on patient participation in health research, the use and effects of media metaphors and hype, and public understanding of emergent technologies. Graduates with this specialisation have a theoretical understanding of the complex problems that arise during such communication processes, and have developed the necessary skills to act professionally at this interface to enhance communication and the outcomes of communication between scientific actors and society. • Science in Society: Graduates with a specialisation Science in Society combine an academic approach with the skills and competences that will allow them to perform scientific research at the interface of the biomedical sciences and society. The specialisation aims to develop strategies that contribute to an understanding of complex societal problems and strategies to solve complex societal problems through interdisciplinary research. In addition, the programme analyses the social, economic and ethical aspects of new developments in the biomedical sciences, so as to assess their implications for society. Graduates have the necessary skills to collaborate and communicate with researchers from various scientific disciplines (including but not limited to those in the life sciences) and societal actors, and the ability to use these academic insights. • Education specialisation: Graduates with a specialisation in Education (CROHO number 68502) obtain a certificate that qualifies the graduate to teach Biology in secondary schools (this is a 'grade one' certificate, i.e. it qualifies the graduate to teach pupils who will sit public exams in the subject).	
3.	Language proficiency may be taken into account in the assessment of examinations.	Approval OLC (7.13 c)

Article 9.5 Language of instruction

1.	The language of instruction is English.	Approval OLC (9.18)
2.	The 'Gedragscode vreemde taal' (Code of conduct for foreign languages) applies.	VU policy

10. Curriculum structure

Article 10.1 Composition of the programme

1.	The programme comprises at least a package of compulsory components and an individual Master's thesis or academic work placement.	Ordinance CvB, see Appendix III
2.	Additionally the programme can offer:	Advice OLC

- Specialisations, of which students choose at least one and maximum two; - Electives (see Study guide)	(7.13 a)
3. Units of education are categorised as specialised (400), research-oriented (500) and highly specialised (600) level.	Ordinance CvB, see Appendix III

Article 10.2 Compulsory units of education

A detailed description per unit of education can be found in the Study Guide.

1. Compulsory units of education separate from specialisations

Unit of education	course code	nr of EC	level	Advice OLC; (7.13 a)
Year 1 compulsory				
Integrated Biomedical Sciences	AM_1281	6	400	
Study and Career M Biomedical Sciences yr 1	AM_1258	0	400	
Ethics in Life Sciences	AM_470707	3	400	
Academic Writing: Biomedical Sciences	AM_1320	3	400	
Year 2 compulsory				
Study and Career M Biomedical Sciences yr 2	AM_1270	3	400	
Year 2 constrained choice				
Literature thesis Biomedical Sciences*	AM_471135	9	600	
Literature Review MPA**	AM_1251	6	500	
Literature Study M Biomedical Sciences	AM_1319	6	600	

* The literature thesis must be written within the scope of one or both biomedical disciplinary specialisation(s).

** Only for students in the specialisations IPH, Science Comm or Science in Society

2. First year: biomedical disciplinary specialisation of 48 EC

The prescribed scope of the biomedical disciplinary specialisations is 48 EC, including:

- research internship (30 EC)
- at least 3 courses from the specialisation (18 EC)

Unit of education	course code	nr of EC	level	Advice OLC; (7.13 a)
Specialisation Immunology				
Internship Immunology	AM_471137	30	600	
Advanced molecular immunology	AM_470656	6	500	
Clinical Immunology and Disease Mechanisms	AM_1309	6	500	
Immune Modulation, Monitoring and Metabolism	AM_1318	6	500	
Specialisation Infectious Diseases				
Internship Infectious Diseases	AM_471138	30	600	
Advanced Molecular Immunology	AM_470656	6	500	
Molecular infection Biology	AM_470657	6	600	
Constrained choice				
Containment Strategies	AM_470127	6	500	
Parasitology	AM_470052	6	400	
The Human Microbiome in Health and Disease	AM_1310	6	500	

Specialisation Neurobiology				
Internship Neurobiology	AM_1178	30	600	
From Molecule to Mind	AM_1275	6	400	
Clinical Neurosciences	AM_1005	6	400	
Genetics in Neuroscience	AM_1214	6	400	

3. Second year: specialisation of 48-60 EC, either in another biomedical discipline or a societal specalisation or the research focus programme.

- The prescribed scope of the societal specialisations International Public Health, Communication and Science in Society specialisations is 48 EC, including:
    - Internship (30 EC)
    - At least 3 courses from the specialisation (18 EC)
- The prescribed scope of the Education specialisation is 60 EC.
- The prescribed scope of the research focus programme is 48 EC, including:
    - Internship Biomedical Sciences (AM_471158, 30 EC)
    - A minimum of 18EC consisting of:
        - A coherent group of courses at Master's level with biomedical focus, not related to the first year biomedical disciplinary specialisation.
        - an extension of the research internship (0-3-6 EC)*

* The total EC for both internships together may not exceed 66EC

Unit of education	course code	nr of EC	level	Advice OLC; (7.13 a)
Specialisation Immunology				
Internship Immunology	AM_471137	30-36	600	
Advanced molecular immunology	AM_470656	6	500	
Clinical Immunology and Disease Mechanisms	AM_1309	6	500	
Immune Modulation, Monitoring and Metabolism	AM_1318	6	500	
Specialisation Infectious Diseases				
Internship Infectious Diseases	AM_471138	30-36	600	
Advanced Molecular Immunology	AM_470656	6	500	
Molecular infection Biology	AM_470657	6	600	
Constrained choice				
Containment Strategies	AM_470127	6	500	
Parasitology	AM_470052	6	400	
The Human Microbiome in Health and Disease	AM_1310	6	500	
Specialisation Neurobiology				
Internship Neurobiology	AM_1178	30-36	600	
From Molecule to Mind	AM_1275	6	400	
Clinical Neurosciences	AM_1005	6	400	
Genetics in Neuroscience	AM_1214	6	400	

Specialisation International Public Health			
Internship International Public Health	AM_471139	30	600
Containment Strategies	AM_470127	6	500
Research Methods for Health Sciences	AM_1255	6	400
Policy, Management and Organisation in IPH	AM_470819	6	500
Specialisation Science Communication			
Research methods for analyzing problems	AM_1182	6	400
Science and Communication	AM_470587	6	500
Constrained choice			
Research Internship Science Communication	AM_1162	30	600
Reflective Practice Internship Science Comm.	AM_1163	30	600
Constrained choice			
Science in Dialogue	AM_1002	6	500
Science Museology	AM_470590	6	500
Science Journalism	AM_471014	6	500
Specialisation Science in Society			
Internship Science in Society (BMED)	AM_1133	30	600
Research methods for analyzing problems	AM_1182	6	400
Analysis of Governmental Policy	AM_470571	6	500
Communication, Organization and Management	AM_470572	6	500
Specialisation Education (Dutch)			
Didactiek 1	O_MLDIDAC_1	6	400
Praktijk 1	O_MLPRAK_1	6	400
Peergroup 1	O_MLPEERGR_1	0	400
Didactiek 2	O_MLDIDAC2	9	400
Praktijk 2	O_MLPRAK_2	9	400
Peergroup 2	O_MLPEERGR_2	0	000
Praktijk 3	O_MLPRAK_3	15	400
Pedagogische Didactische Verdieping	O_MPEDIVER	9	500
Startweek Septemberstart	O_MSTARTSEP	0	000
Year 2 research focus programme			
Internship Biomedical Sciences	AM_471158	30-36	600

Article 10.3 Elective units of education

1. The student can take one or more of the following electives without prior consent from the Examination Board:				Advice OLC; (7.13a)
Unit of education	course code	nr of EC	level	
Research Methods for Analyzing Problems	AM_1182	6	400	
Analysis of Governmental Policy	AM_470571	6	500	

Science and Communication	AM_470587	6	500	
Containment Strategies	AM_470127	6	500	
Advanced Molecular Immunology	AM_470656	6	500	
Molecular Infection Biology	AM_470657	6	600	
International Comparative Analyses of Health Care Systems	AM_470820	6	500	
Clinical Immunology and Disease Mechanisms	AM_1309	6	500	
Business Management	AM_470584	6	500	
Policy, Management and Organisation in IPH	AM_470819	6	500	
Science Journalism	AM_471014	6	500	
Science Museology	AM_470590	6	500	
Parasitology	AM_470052	6	400	
Health, Globalisation and Human Rights	AM_470818	6	400	
Policy, Politics and Participation	AM_470589	6	500	
Management of Innovative Technologies in Community-Based Health Care	AM_1181	6	500	
Communication, Organization and Management	AM_470572	6	500	
Immune Modulation, Monitoring and Metabolism	AM_1318	6	500	
Disability and Development	AM_470588	6	500	
Clinical Development and Clinical Trials	AM_1180	3	500	
Innovation, Behavior, Emergence and Markets	AM_1052	3	500	
Epidemiology	AM_1179	3	500	
Science in Dialogue	AM_1002	6	500	
The Human Microbiome in Health and Disease	AM_1310	6	500	
Optional courses specialisation Education				
Praktijkonderzoek	O_MLPROZ	6	400	
Wereldburgerschap Deel 1	O_MWRLDBS_1	3	400	
AI in het Onderwijs	O_MAIIHO	3	400	
Vernieuwende onderwijsconcepten	O_MVERNOND	3	400	
Tweetalig Onderwijs	O_MTTO	3	500	
Wereldburgerschap Deel 2	O_MWRLDBS_2	3	400	
Inclusieve Digitale Didactiek	O_MIDD	3	400	
2. If the student wishes to take a different unit of education than listed, advance permission must be obtained in writing from the Examination Board.				
3. Students with room for an elective or with the Research Focus Programme may choose any of the courses mentioned in 10.2.2, 10.2.3 and 10.3.1, except from the specialisations Neurobiology and Education and internships.				

Article 10.4 Practical exercise

The following components can be considered as practical exercises:

Approval OLC (7.13 d)

Name of unit of education	course code	nr of EC	level

Internship Immunology	AM_471137	30-36	600
Internship Infectious Diseases	AM_471138	30-36	600
Internship Neurobiology	AM_1178	30-36	600
Internship Biomedical Sciences- no spec.	AM_471158	30-36	600
Internship International Public Health	AM_471139	30	600
Research Internship Science Comm.	AM_1162	30	600
Reflective Practice Int. SC. Comm.	AM_1163	30	600
Internship Science in Society (BMED)	AM_1133	30	600

Article 10.5 Participation in practical training and tutorials

1. In the case of practical exercises, there may be attendance requirements. For details on attendance requirements, please refer to the study guide of the relevant unit of study.	Approval OLC (7.13 d)
2. In the case of tutorials, there may be attendance requirements. For details on attendance requirements, please refer to the study guide of the relevant unit of study.	Approval OLC (7.13 d)
3. For thesis and internship, the programme applies the guidelines as stipulated in the Thesis and Placement Regulations.	Approval OLC (7.13 d)

11. Evaluation and transitional provisions

Article 11.1 Evaluation of the programme

1. The education provided in this programme is evaluated in accordance with the document 'Kwaliteitszorg Onderwijs BETA'.	Approval OLC (7.13 a1)

Article 11.2 Transitional provisions

1. By way of departure from the Teaching and Examination Regulations currently in force, the following transitional provisions apply for students who started the programme under a previous set of Teaching and Examination Regulations:
   a. Replaced components

Advice OLC (7.13 a)

Newest component	specialisation	Former component(s)
AM_1309 Clinical Immunology and Disease Mechanisms (6 EC)	Immunology	AM_470655 Clinical Immunology (6 EC)
AM_1318 Immune Modulation, Monitoring and Metabolism	Immunology	AM_1282 Immunotherapy and Immune Monitoring (6EC), AM_1283 Immunometabolism (6EC), AM_1031 Translational Immunology (6EC), AM_1224 Single Cell Technologies (3EC) ór AM_1257 Single-Cell OMICs in Immunotherapy (6EC)
AM_1255 Research Methods for Health Sciences	International Public Health	AM_470817 Research Methods for Need Assessments (6EC)

AM_1320 Academic Writing: Biomedical Sciences	Compulsory courses	AM_1161B Scientific Writing in English

From the academic year of change, students take the new courses, unless they passed the former ones.

b. Specialisation Neurobiology 2024-2025: from the academic year of change, students take the new courses, unless they passed the former ones.

Newest component	**specialisation**	**Former component(s)**
Specialisation courses (18EC) Neurobiology: * AM_1275 From Molecule to Mind (6EC) * AM_1214 Genetics in Neurosciences (6 EC) * AM_1005 Clinical Neurosciences (6 EC)	Neurobiology	AM_1275 From Molecule to Mind (6EC) and at least 12 EC from the following courses (only with specialisation Neurobiology in 2023-2024): • Neuronal Networks in Vivo AM_1001 6 • Rhythms of the Brain AM_1003 6 • Behavioural Neurosciences AM_1299 6 • Systems Neuroscience AM_470712 6 • Developmental neurobiologyAM_470713 6 • Neuro- and psychopharmacology AM_470718 6

Approval of the Programme Committee of the curriculum structure (submitted via UAS), on 12/12/2024.

Advice and/or approval by the Programme Committee (with the exception of the curriculum structure), on 3 September 2025.

Approved by the Faculty Joint Assembly, on 25 July 2025.

Adopted by the board of the Faculty of Science on 8 September 2025.

Appendix I

Overview of articles that must be included in the OER

Based on Article 7.13, paragraph 2 and Article 7.30b, paragraph 2 of the WHW.

Section A: Faculty section

2. Study programme structure	
Article 2.1 Structure of academic year and units of education	7.13 paragraph 2 sub e
3. Assessment and examination	
Article 3.2 Type of examination	7.13 paragraph 2 sub h, l, j
Article 3.3 Oral examinations	7.13 paragraph 2 sub l, n
Article 3.4 Determining and announcing results	7.13 paragraph 2 sub o
Article 3.5 Examination opportunities	7.13 paragraph 2 sub h, j
Article 3.7 Exemption	7.13 paragraph 2 sub r
Article 3.8 Validity period for results	7.13 paragraph 2 sub k
Article 3.9 Right of inspection and post-examination discussion	7.13 paragraph 2 sub p, q
4. Academic student counselling and study progress	
Article 4.1 Administration of study progress and academic student counselling	7.13 paragraph 2 sub u
Article 4.2 Facilities for students with a disability	7.13 paragraph 2 sub m

Section B1: Programme specific – general provisions

6. General programme information and characteristics	
Article 6.1 Study programme information	7.13 paragraph 2 sub i, r
Article 6.2 Teaching formats used and modes of assessment	7.13 paragraph 2 sub l, x
[keuze:] Article 6.3 Academic student counselling	7.13 paragraph 2 sub u
7. Further admission requirements	
Article 7.2 Admission requirements	7.30b paragraph 1
Article 7.3 Selection criteria	7.30b paragraphs 2 & 5
Article 7.4 Pre-Master's programme	7.57i section 1
8. Examinations and results	
Article 8.1 Sequence of examinations	7.13 paragraph 2 sub h, s, t
[option 1:] Article 8.2 Validity period for results	7.13 paragraph 2 sub k
[option 2:] Article 8.2 Validity period for results	7.13 paragraph 2 sub k

Section B2: Programme-specific section – content of programme

9. Programme objectives, tracks/specialisations, exit qualifications and language	
Article 9.1 Workload	7.13 paragraph 2 sub g
Article 9.2 Tracks and/or specialisations	7.13 paragraph 2 sub a
Article 9.3 Programme objective	7.13 paragraph 2 sub a
Article 9.4 Exit qualifications	7.13 paragraph 2 sub b, c
Article 9.5 Language of instruction	9.18 (*implementation expected in 2020*)
10. Curriculum structure	
Article 10.1 Composition of the programme	7.13 paragraph 2 sub a
Article 10.2 Compulsory units of education	7.13 paragraph 2 sub a
[Keuze:] Article 10.3 Elective units of education	7.13 paragraph 2 sub a
[Keuze:] Article 10.4 Practical exercise	7.13 paragraph 2 sub d
Article 10.5 Participation in practical training and tutorials	7.13 paragraph 2 sub d
11. Evaluation and transitional provisions	
Article 11.1 Evaluation of the programme	7.13 paragraph 2 sub a1
Article 11.2 Transitional provisions	7.13 paragraph 2 sub a

Appendix II

Overview of advisory and approval rights of Programme Committees (OLC) and Faculty Joint Assembly (FGV)

Article 7.13, paragraph 2, of the Higher Education and Research Act	FGV		OplC	
	I	A	I	A
a. the content of the programme and the associated examinations				
a1. the manner in which teaching and education in the relevant programme are evaluated				
b. the content of the specialisations offered as part of the programme				
c. the programme's final attainment levels with regard to the knowledge, understanding and skills				
d. where applicable, the design of practical exercises				
e. the workload of the programme and of each of its constituent units of education				
f. the detailed rules referred to in Article 7.8b, sixth paragraph, and Article 7.9, fifth paragraph (recommendation on continuation of studies)				
g. the Master's programmes to which Article 7.4a, eighth paragraph, applies (elevated workload)				
h. the number and sequence of examinations and the times at which these can be taken				
i. the full-time, part-time or work-study structure of the programme				
j. where necessary, the order in which students can take the examinations and the final examinations for Bachelor's and Master's programmes, as well as the timing of and number of opportunities				
k. where necessary, the period of validity for pass grades awarded for examinations, notwithstanding the authority of the Examination Board to extend this period of validity				
l. whether examinations are administered in oral, written or another form, notwithstanding the authority of the Examination Board to decide otherwise				
m. the way in which students with a disability or chronic health condition are given a reasonable opportunity to take the examinations				
n. the public nature of oral examinations, subject to the right of the Examination Board to determine otherwise in special cases				
o. the period within which the results of an examination must be announced, together with details of whether this period can be altered and if so in what way				
p. the way in which and the period within which students who have taken an examination are given the opportunity to inspect their marked work				
q. the way in which and the period within which information can be provided about the questions asked and exercises given in the framework of a written examination and about the standards used for assessment				
r. the grounds on which the Board of Examiners may grant exemptions from taking one or more examinations on the basis of examinations and final examinations for Bachelor's and Master's programmes previously completed in higher education, or on the basis of knowledge or skills acquired outside higher education				
s. where necessary, the stipulation that students must pass certain examinations as a condition for admission to other examinations				
t. where necessary, the obligation to take part in certain practical exercises with a view to admission to the examination in question, subject to the authority of the Examination Board to grant exemption from this obligation, with or without the imposition of alternative requirements				
u. the monitoring of academic progress and individual student support and guidance				
v. where applicable, the manner in which students are selected for a special track within a programme as referred to in Article 7.9b (excellence track within a programme)				
x. the actual design of the education provided				
All other matters that are regulated in the Academic and Examination Regulations but which are not mentioned as such in Article 7.13 of the Higher Education and Research Act under points a to x.				

The lettering corresponds to the lettering of Article 7.13 section 2 of the WHW

Abbreviations used:

FGV: Faculty Joint Assembly
OplC: Programme Committee
I: right of approval
A: right of advice

Appendix III
Ordinances of VU Executive Board (CvB) and Binding Master's Guidelines

Section A, article:	Concerns:	CvB ordinance / guideline
2.1.1, 2.1.2	Year planning two semesters 8-8-4 (uniform year calendar VU-UvA)	29-9-2008 (period 2009-2015) 22-05-2014 (period 2016-2025)
2.1.3, 2.1.4	Units of education	Bachelor's and Master's education guidelines included in model TER, revised on 2 July 2019
3.1	Signing up for education and examinations	CvB ordinance 17-11-2020, prior consent of USC.
3.4.1	Determination and publication of the results (1) Grading deadline exams ten working days (2) Theses twenty working days	(1) Bachelor's guideline included in model TER, revised on 2 July 2019 ((2) Quality demand 11 from the VU-wide assessment policy, CvB ordinance 15-05-2012, approval GV 28-02-2013
3.5.1	Two possibilities to take examinations per year	Bachelor's and Master's education guidelines included in model TER, revised on 2 July 2019
3.5.2	Resit: most recent grade is valid, resit allowed in case of pass grade	Taken from the UvA guidelines, as part of the harmonisation, CvB ordinance 24-02-2014
3.5.4	One-time extra resit in relation to examination requirement	Included in (prior) model OER 16-17 following a request from committee O&O and adopted by CvB op 27-10-2015
3.6	Grades	CvB ordinance 30-09-2010, prior consent USR. As a result of harmonisation UvA, the guideline: 5.5 is a pass, has been added. CvB ordinance 24-02-2014.
Section B1, article:	**Concerns:**	**CvB ordinance / guideline**
7.2	Admission criteria	Bachelor's and Master's education guidelines included in model TER, revised on 2 July 2019
7.3	Selection criteria	Bachelor's and Master's education guidelines included in model TER, revised on 2 July 2019
Section B2, article:	**Concerns:**	**CvB ordinance / guideline**
10.1.1	Composition programme	Bachelor's and Master's education guidelines included in model TER, revised on 2 July 2019
10.1.3	Categorisation of units	Bachelor's and Master's education guidelines included in model TER, revised on 2 July 2019

Appendix IV
Higher Education and Research (Implementation) Act

1.The extenuating personal circumstances referred to in Article 7.8b, paragraph 3 and 7.9, paragraph 3 of the Act (WHW) are limited to:

a. illness of the person concerned,
b. physical, sensory or other impairment of the person concerned,
c. pregnancy of the person concerned,
d. extenuating family circumstances,
e. membership, including the chairmanship of:

1. universities: the university council, faculty council, the body established under the participation regulation referred to in Article 9.30, paragraph 3, or Article 9.51, paragraph 2, of the Act, the programme management or the programme committee, or membership on the board of a foundation whose bylaws allow for the exploitation of facilities belonging to the student services, or an equivalent body with regard to its activities in the opinion of the board of the institution,

2. universities of applied sciences: the participation council, district council, student committee or programme committee,

f. other circumstances to be designated by the board of the institution in the regulation as referred to in Article 7.8b, paragraph 6, and Article 7.9, paragraph 5, of the Act in which the person concerned engages in activities within the framework of the organisation and the administration of the affairs of the institution,
g. membership on the board of a student organisation of a certain size with full legal capacity, or a similar organisation of a certain size, whose primary task regards general societal interest and which actually develops activities for this purpose,
h. other personal circumstances set out in the Teaching and Examination Regulations as referred to in Article 7.13 of the Act, pursuant to Article 7.13, paragraph 2, clause f of the Act,
i. personal circumstances other than those referred to in a – h above which, if overlooked by the governing bodies of the institution, would lead to an obviously unfair outcome.

2 The institutional board may, for the purposes of the first paragraph, part g, establish specific rules regarding the maximum number of eligible board members per organisation per academic year, as well as the eligible administrative offices.
